# GRADUATE PROGRAM ORIENTATION

**Location:** San Francisco State University. School of Engineering  
**Date:** [Insert Date & Time Here]

## Explore Graduate Opportunities in Engineering

Are you interested in advancing your career with a Master of Science in Mechanical, Civil, or Electrical & Computer Engineering? Join us for our Graduate Program Orientation designed for both prospective applicants and current graduate students.

### What to Expect

-  Tours of engineering studios, labs, and new facilities
-  Faculty–student research presentations
-  Department & school open houses with student exhibits
-  General office hours for one-one guidance
-  Program overviews & Q&A sessions
-  Graduate student panels sharing insights and experiences
-  Application workshops for the M.S. programs
-  Cal State Apply workshops with hands-on support
-  Ph.D. program placement pathways

### Why Attend?

- Get insider tips on how to apply successfully
- Learn about deadlines and degree completion requirements
- Connect with faculty, staff, alumni, and current graduate students
- Discover how an SESU Engineering M.S. degree can shape your career

### Who Should Attend?

- Prospective students considering our graduate programs
- Current graduate students looking to stay on track with degree milestones and deadlines
